

Headspace Vial Kits

Integrated Liner Technologies
The world's leading manufacturer of caps and septa.

Features of Headspace Vial Kits

- 18mm Magnetic Screw cap precision thread, lined.
- Manufactured from Type 1 borosilicate glass.
- 20mm standard crimp seal vial feature
- 18mm screw thread-radius (rounded bottom)
- 18mm vials have 1.25mm avg wall thickness which offers more reliability when internal pressures build.

18mm Headspace Vial Kits

Cap	Vial	Type	Glass	Description	PartNumber
18mm	20ml	Radius bottom for CTC.	Clear	18mm SPME micro center liner, white silicone/ blue PTFE	018-18-6272
18mm	20ml	Radius bottom for CTC.	Clear	18mm screw, white silicone/ blue PTFE	018-18-6271
18mm	20ml	Radius bottom for CTC.	Clear	18mm screw, red butyl/ natural PTFE	018-18-6270

20mm Headspace Vial Kits

Cap	Vial	Type	Glass	Description	PartNumber
20mm	20ml	Beveled edge, round bottom, crimp	Clear	20mm black butyl/grey PTFE - Pharmafix	020-18-6269
20mm	20ml	Beveled edge, round bottom, crimp	Clear	20mm clear silicone/natural PTFE	020-18-6268
20mm	20ml	Beveled edge, round bottom, crimp	Clear	20mm Pressure release crimp , clear silicone/natural PTFE	020-18-6267
20mm	20ml	Beveled edge, round bottom, crimp	Clear	20mm Pressure release crimp , gray butyl/ natural PTFE	020-18-6264
